## How Do I Apply for Incentives?

Please review the Business Program Terms and Conditions and application requirements.

**Step 1:** Review program materials to confirm the energy efficiency measures meet program requirements. Visit [www.energysaveOhio.com](http://www.energysaveOhio.com) or contact us at [energysaveOhio@saic.com](mailto:energysaveOhio@saic.com) or 1-866-578-5220 with questions.

**Step 2:** Complete the program application and attach supporting technical documentation required to verify that proposed equipment meets program requirements, such as manufacturers' specification (cut) sheets. Please note that the information requested on the form is state mandated documentation required before your application can be reviewed by the program.

Sign the application form and submit a complete application package to the program manager for consideration, review and approval. Incomplete applications will not be considered and will be returned to the applicant for completion.

A complete application package includes:

- A signed application form, listing the quantities of qualifying fixtures included in your project,
- A copy of IRS form W-9, and
- Manufacturers' specification (cut) sheets for each installed item to verify that the equipment is eligible. Please circle or highlight the relevant information on the specification (cut) sheet.

Complete application packages must be returned via email, fax or hardcopy:

Email: [energysaveOhio@saic.com](mailto:energysaveOhio@saic.com)

**Step 3:** The program manager will notify the applicant via email when the review is complete and funds have been reserved. Participants may purchase and install their energy efficient equipment upon notification of pre-approval.

**Step 4:** Once the project is complete, you should review your approved application for any changes to the project that occurred during installation and make the needed corrections. Resubmit the application, along with a dated proof of purchase, to the program for incentive payment.

Applications and supporting technical documentation will be reviewed by program staff, and an onsite inspection to verify the installation may be conducted. Upon receipt and verification of all required documentation, the incentive check will be processed and mailed to the applicant or to an authorized representative, if requested on the application.

To confirm tax status, all applicants (including tax exempt entities) must submit a W-9 with Tax Identification associated with the incentive recipient to enable processing. Incentives will not be paid until W-9s have been received.

<b>Eligibility</b>	<p>“Participant” or “Participants” are Program customers identified above served by Toledo Edison, The Illuminating Company, and Ohio Edison as defined above. Residential customers are not eligible for incentives through the Commercial and Industrial Programs. Incentives are awarded only to Participants, or their assigned agents, for qualifying equipment (“Energy Efficiency Measures”) that is installed in the State of Ohio at the location identified in this Application, and such Participants are responsible for compliance with the Terms and Conditions set forth herein.</p>
<b>Compliance</b>	<p>The Participant is responsible to comply with all applicable laws, rules and regulations, and to comply with all federal, state, and local codes.</p>
<b>Publicity</b>	<p>With Participant’s written permission, the Companies may publicly recognize participation in the Programs and disclose information relating to the Participant’s participation in the program, including such data as: projected project energy savings, the incentive amount, and other similar information.</p>
<b>Application and Eligibility Process</b>	<p>The Programs provide for payment of incentives after the installation of qualified energy efficiency measures and review of final documentation for compliance with program requirements by the Program Manager. In order to be eligible for incentives, a Participant, or an agent (contractor/vendor) authorized by the Participant, must submit a properly completed pre-installation application package, including an application and technology worksheets, to the Program Manager before the equipment is purchased. If eligible, the Participant will receive an approval letter with the estimated incentive amount and the date by which the equipment must be purchased and installed for the approval to remain in effect.</p> <p>After installation is completed, the Participant must finalize and resubmit the completed equipment application reflecting the “as built” project, along with the invoice, the manufacturer’s equipment performance sheet, and any other required documentation as may be specified on the application or in the program’s initial approval letter. Applications must be filled out completely, truthfully and accurately, and include signatures of the Participant and its authorized agents (as appropriate). Final payment will be based on the “as-built” documentation provided with the final project application.</p>
<b>Dates of Program</b>	<p>Incentives are available for eligible Energy Efficiency Measures for which equipment is purchased and installed on or after <b>April 11, 2011</b>.</p> <p>Dated Proof of Purchase and complete documentation will be required with final applications for the participant to be eligible for incentive payment. The program is subject to revision or termination at any time by the Companies.</p>
<b>Installation Schedule Requirements</b>	<p>Pre-approved projects will receive approval letters defining terms for payment and a commitment expiration date. If the Participant: (1) has not engaged in installation of the pre-approved project; and (2) has not applied to the Program Manager for a project extension within 90 days from the date the Program Manager pre-approves the project, the Program Manager may cancel Participant’s application without liability.</p>
<b>Acceptable Proof of Purchase</b>	<p>Acceptable forms of Proof of Purchase include paid invoices or receipts. The documentation must show item numbers, quantities and descriptions that are of sufficient detail to verify that the installed equipment meets efficiency requirements. Additionally, the post-installation documentation must include manufacturers’ specifications (“cut sheets”) that list the efficiency ratings of the equipment. <i>The Program Manager may, at its sole discretion, accept other forms of proof of purchase.</i></p>
<b>Evaluation, Measurement and Verification</b>	<p>The Program Manager may, but is not obligated to, conduct an inspection of the facility to verify pre- and post-installation conditions or verify documentation prior to incentive payment, at any time after receipt of applications and up to 5 years after payment of incentives. In addition, the Ohio Public Utility Commission and the Companies will engage Evaluation Measurement and Verification (“EM&amp;V”) contractors to evaluate program performance which may involve additional visits. The applicant must provide reasonable access to the facility, the equipment, and related documentation and data. The Companies or their agents may install simple/standard metering devices on equipment for program data collection, measurement and verification purposes. The Companies and their agents are not obligated to pay any incentive awards until it has performed a satisfactory post-installation verification, unless it has waived this requirement.</p> <p>If the Program Manager determines that the equipment was not installed in a manner consistent with the approved application, or if non-qualifying equipment was installed, it may require changes before making payment. If qualifying equipment cannot be located at the Participant’s facility or is not installed in a manner consistent with the provisions of these Terms and Conditions, the Companies may seek recovery of the incentives paid.</p>
<b>Assignment</b>	<p>The Participant may assign Program Incentives to a specified third party.</p>
<b>Participating Customer's Certification</b>	<p>Participant certifies that he/she purchased and installed the equipment listed in its application at its defined Pennsylvania location listed therein. Participant agrees that all information is true and that he/she has conformed to all of the program’s eligibility requirements, terms and conditions.</p>

Applications requiring post-installation inspections and unanticipated high volume of activities may require additional time. If information is missing or incorrect on the application, processing and delivery of the Program Incentive may also require additional time.
